Placing the Lagos fireplace inside the Calgary mantel

ASSEMBLY INSTRUCTIONS

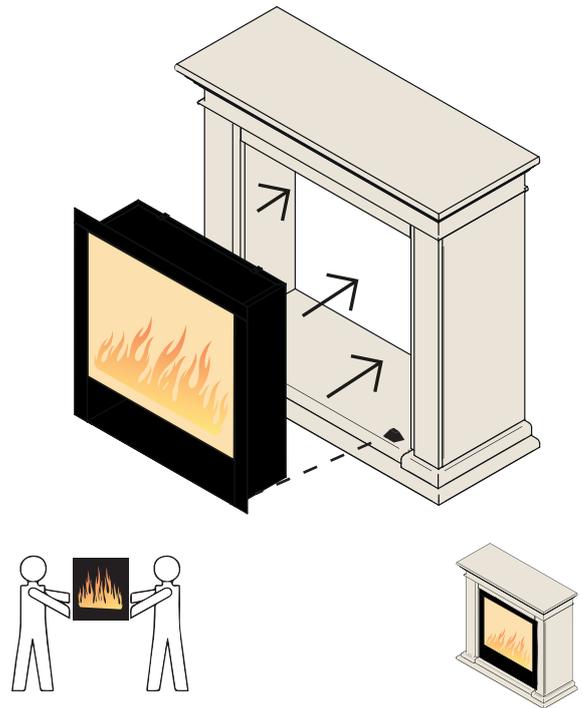

STEP 1

Place the rubber pads at the bottom of the opening. Remove the foil and attach it. This is where the fireplace will rest on.

STEP 2

Slide the insert fireplace into the mantel from the front. Then, you can position and secure the fireplace correctly.

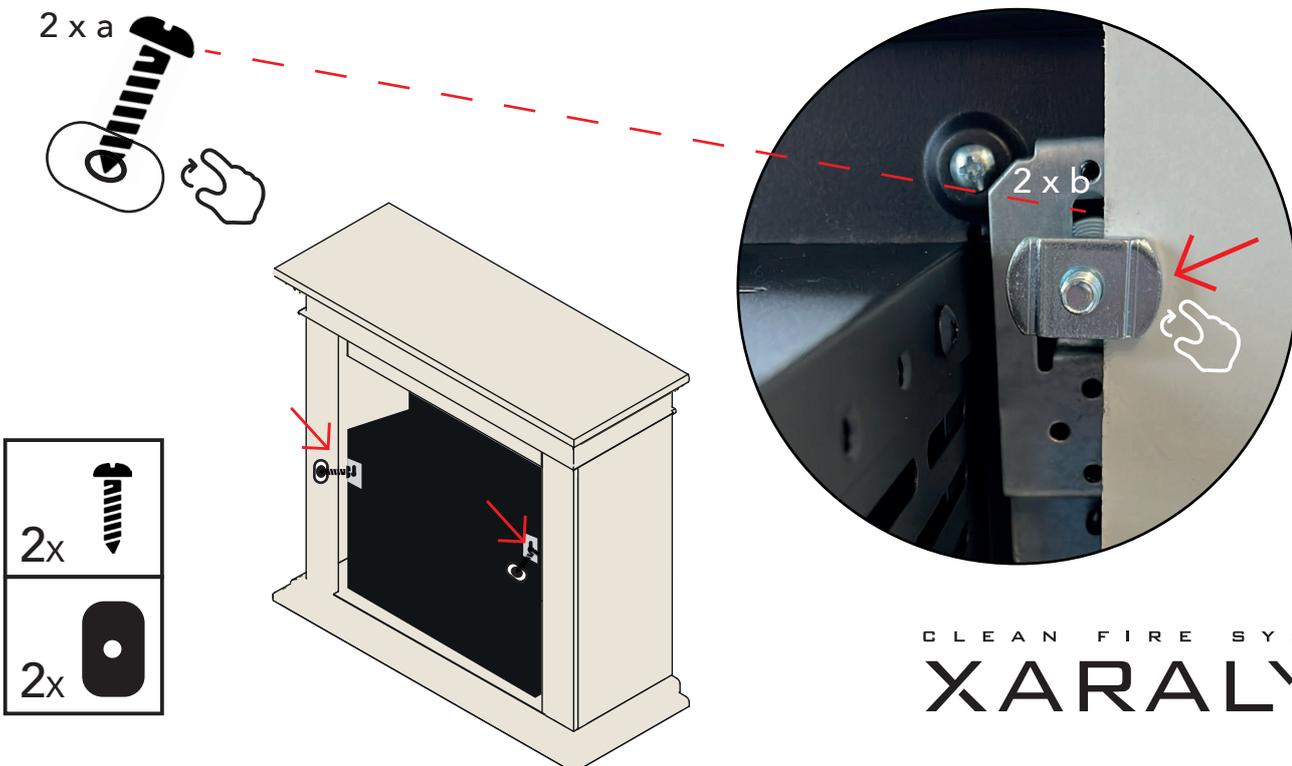

STEP 3

Place the insert fireplace in the center of the opening.

(3a) Take the two bolts and screw the nuts on by hand a little.

(3b) Then hook it into the metal hanging frame of the Lagos and continue tightening the nut by hand until it clamps securely onto the wood of the mantel.
